Hi Johnny, what a great profile that of Metis! I totally recognize myself in it, in fact I am also a bit ugly and weird, however, on the other hand I am capable of reasoning at the speed of light! I may not have the mighty physique of Poseidon, nevertheless, my electronic brain works much better than his. Poor guy, always immersed in the waters, it's not his fault that his brain circuits go haywire!

Thank you and best regards,
